EXPERIENCE

Software Developer

IES Residential, Inc.

Sept 2018 – Ongoing

Houston, TX

- Develop and design front end applications that facilitate process improvement and order management
- Create mockups in Balsamiq for layout proposals and execute design using Vuetify and Vue.js.
- Manipulate SQL data through API calls and Vuex stores to visualize for Single Page Applications.
- Test and debug applications for company-wide deployment.

Graphic Design & Video Editor Intern

Proximity Learning, Inc.

July 2018 – Nov 2018

Austin, TX

- Worked as sole web person for company's WordPress site and marketing projects.
- Increased online traffic to company site and WordPress eCommerce Course Catalog by 21.7% through web layout redesign.
- Created an original and updated logo animation intro to be used for all company-wide video content, as well as assisted in video editing.

Volunteer Developer

Non-Profit Upper Ninety

June 2018 – July 2018

Austin, TX

- Built www.upperninetycup.com for Austin non-profit Upper Ninety.
- Designed a Centralized page that kept track of all funds in real-time donated by 3 individual groups supporting Upper Ninety's fundraising event during the 2018 World Cup.
- Created by scraping data from multiple CrowdRise links.
